

Summer Workshops 2017

CRAFT SHOP

KIDS CAMPS (AGES 7 - 12)

DINOSAURS AND ANIMALS THROUGHOUT TIME

(Grades 1-3) • June 5-9 • 9 a.m.-Noon

Inspiration for this workshop comes from the creatures of the past and present. Images and creations will be used to communicate our stories whether fact or fiction. Drawing, paint and clay will be used to explore ideas. **FEE:** \$115

ART MATERIAL EXPRESSION

(Grades 4-8) • June 5-9 • 1-4 p.m.

Students will choose an expression from different materials to communicate their ideas. Student artists will explore a variety of painting, drawing and sculpting while keeping a journal for experimenting with materials and recording ideas. Individual expressions are shared to benefit the group's expanding knowledge of communication through art. **FEE:** \$115

DRAWING AND PAINTING FOCUS

(Grades 6-9) • June 12-16 • 9 a.m.-1 p.m.

A variety of drawing and painting techniques will be covered. Advanced skills such as perspectives, shading and composition will be explored, as students are encouraged to study their own interests. Modern and classical approaches are explored. **FEE:** \$135

ANIMALS AROUND THE WORLD

(Grades 1-3) June 12-16 • 1-4 p.m.

Draw, sculpt and learn about animals all over the world. Use multiple art mediums to explore your favorite animals. Use your experience from the zoo, family pets, farm, or inspiring television programs, or your imagination. Whether furry or slithery, animals inspire kids. **FEE:** \$115

CERAMIC ARTS

(Grades 4-8) • June 19-21 • 9 a.m.-Noon

Explore the amazing world of ceramics. Discuss designs and understand ceramic processes. Work with hand building and the pottery wheel. Coils, slab, scoring, slips, textures and glazes are included. Functional and sculptural pieces are constructed with creative challenges added. Pieces will be fired in our kilns. **FEE:** \$65

WOOD WORKING

(Grades 4-8) • June 21-23 • Noon-3 p.m.

Learn how to follow a plan, cut out wood using hand tools, then nail and screw them together. Hand tools used, with the exception of an electric drill, include hand saws, coping saws, hammers, pliers, glue and clamps. Projects include: sculpture, boat, tool box or bird house. **FEE:** \$65

ART WITH PAPER

(Grades 4-8) June 26-29 • 9 a.m.-Noon

Learn how paper is made around the world and its many uses. Handmade paper will be made using a Hollander Beater. Explore the world of paper by experiencing paper making, paper maché and origami. Paper engineering challenges will be a part of this workshop. **FEE:** \$60

SEWING FOR KIDS

(Grades 4-8) July 10-13 • Noon-3 p.m.

This fun hobby will give you a sense of self-sufficiency by making your own usable items. Learn how to hand stitch and the basic operations of sewing machines as well as how to make a pillow, puppet, dream catcher and bandanna backpack. **FEE:** \$75

PRE-COLLEGE AND HIGH SCHOOL ART WORKSHOP

(Grades 10-12) July 10-14 • 9 a.m.-3:30 p.m.

An introduction to multiple art materials, methods and art history. Creativity and exploration is key to this workshop. In depth training on the pottery wheel, soldering metal, fused glass and other specialties. **FEE:** \$190

PORTRAIT AND FIGURE DRAWING

(Grades 4-6) July 17-21 • 9 a.m.-Noon

The human figure has always been at the center of many art works. This workshop will help demystify the skills required to draw the figure and portrait while conveying the personality of the subjects. Instructors will provide in depth detailed examples. Models will be fully clothed. **FEE:** \$115

INTRODUCTION TO THE ARTS

(Grades 1-5) July 24-28 • 9 a.m.-Noon

Discover the world of art around us. Environmental walks and plein air works will inspire us all to draw, paint, print and sculpt. Experiment with multiple mediums and methods. Learn sculpting with clay, painting and drawing. **FEE:** \$115

WORKING WITH METAL AT THE CRAFT SHOP

(Grades 7-12) July 24-28 • 9 a.m.-1 p.m.

Learn to work with small metals and jewelry making methods by using metals such as copper and even sterling silver. We will break out the wire to create a one of a kind sculpture! **FEE:** \$160

PLANETS, SUN AND ECLIPSE WORKSHOP

(Grades 4-8) July 24-28 • Noon-3 p.m.

In this multi-project workshop, students will paint 3 dimensional planets, construct blinged-out solar viewers, build a water rocket that really works, paint art works designed to represent our solar system inspired by our discussions and space exploration, create a solar reflector and more. Discussions on safe solar viewing included. **FEE:** \$115

**Private lessons and several walk-in activities
are also available.**

Summer Workshops 2017

CRAFT SHOP

ADULT WORKSHOPS

HOW TO USE A TABLE SAW (WOOD WORKING)

June 20 • 4-5:30 p.m.

Learn how to use the table saw, rip, cross cut, change blades, dado cuts, prevent and understand kickback.

Age: 18 and up • Minimum 3, Maximum 10

Cost: SIU Students \$15, Community \$20

INTRODUCTION TO THE WOOD LATHE

June 23 • 4-5:30 p.m.

Learn the basics on how to set up and operate a simple wood lathe. How to sharpen the lathe tools included.

Age: 18 and up • Minimum 3, Maximum 10

Cost: SIU Students \$15, Community \$20

STAINED GLASS

June 27-30 • 5-8 p.m.

Learn the steps in making a stained glass project. Designing, glass cutting, grinding, copper foiling, soldering and finishing will be covered. Materials extra and may be purchased at the Craft Shop. Glass cutter (preferably carbide tipped), stained glass, solder, flux, permanent marker, copper foil are the main supplies needed for this workshop.

Age: 14 and up

Cost: SIU Students \$45, Community \$55

SOLAR FILTERS AND ECLIPSE IMAGING BASICS

July 6 • 6-8 p.m.

With SIU Physics Specialist and Eclipse Committee Co-Chair Bob Baer We will start by looking at the following: What can you image during a solar eclipse? What types of cameras can you use? When do you need a solar filter? Building a solar filter for cameras, binoculars and telescopes. How to practice imaging.

Age: 12 and up

Cost: \$10

FUSED GLASS

Friday, July 7 and Friday, July 14 • 5:30-8:30 p.m.

This summer's fused glass class will be a two-part class creating a more complex project with two separate firings. Our project will be a beautiful fish aquarium using selected pieces of dichroic glass adding areas of sparkle to the 11" X 6" scene.

Prerequisite: Previous fused glass class required.

Ages: 14 and up • Minimum 2, Maximum 10

Cost: SIU Students \$20, Community \$25

Glass Materials Extra: \$20 paid to instructor at first class

HOW TO USE THE RADIAL ARM SAW AND JOINER (WOODWORKING)

July 11 • 4-5:30 p.m.

A useful machine, crosscut and dado cut wood, cut angle and multiples without measuring. Join wood with safety.

Ages: 18 and up • Minimum 3, Maximum 10

Cost: SIU Students \$15, Community \$20

CERAMICS

July 12,13,14, 19 and 20 • 5-8 p.m. (5 sessions)

Wheel throwing workshop that is perfect for beginners! Make pottery from start to finish using the pottery wheel and learning new techniques each week. Learn to make functional and sculptural works of art as well as trimming and glazing techniques. Glazes and firings are included in the price for you to create finished handmade works during this fun introductory class.

Age: 14 and up

Cost: SIU Students \$40, Community \$50

Clay Extra 10 - 20 lbs available at the Craft Shop for \$12/10lbs

BUILD A SOLAR VIEWING FILTER

August 1 • 5:30-7:30 p.m.

Want to use your equipment to view the eclipse? You need this workshop to build a solar filter for cameras, binoculars and telescopes.

Cost: SIU Students \$8, Community \$10
